### NOTES:

*Idaho Freedom PAC endorsed candidates based on a consistent and transparent evaluation process. Candidates were invited to complete a survey outlining their positions on key issues, which served as the primary basis for endorsement decisions.*

*Only those who returned completed surveys were considered eligible, ensuring that endorsements reflected a clear understanding of each candidate's views and alignment with the PAC's priorities. Candidates who did not submit a survey were not eligible for endorsement, regardless of other factors, as participation in this process was essential to maintaining fairness and accountability.*

*IFPAC did not send surveys to candidates who are unopposed in the May primary election.*

*IFPAC will update these endorsements as surveys are returned.*

**VOTING, THE IDAHO WAY.**
